

**AMENDMENTS IN THE SPECIFICATION:**

*Please amend the paragraph beginning on page 1, line 3 as follows:*

The present invention relates to a mounting for a device for the optical quality monitoring of a woven material web on a loom, including a mounting, in which the monitoring device extends over the entire width of the woven material web in accordance with the precharacterising clause of Claim 1.

*Please amend the paragraph beginning on page 2, line 30 as follows:*

The object is achieved by a mounting for a device for the optical quality monitoring of a woven material web having the features of Claim 1.
